Objective

Detail-oriented Computer Science Engineering student skilled in Java, Python, SQL, MySQL, Data Structures and Algorithms, Object-Oriented Programming, DBMS, Web Development, and Problem Solving. Familiar with Software Development Life Cycle (SDLC), Front-End Development, REST APIs, Responsive Web Design, Version Control, Debugging, and Scalable Application Development. Passionate about software engineering, clean code practices, analytical thinking, and building efficient user-focused applications.

Academic Qualifications

- **Bachelor of Technology in Computer Science and Engineering**

- Ramachandra College of Engineering, Eluru (Affiliated to JNTUK) 2023 – 2027 (Pursuing)

- **Intermediate**

- Sri Chaitanya Junior College, Eluru 2021 – 2023

- **Secondary School**

- Sri Chaitanya Techno School, Nuzvid 2020 – 2021

Projects

- **Tic Tac Toe (Solo)** GitHub

March – April 2025

- Designed and developed a responsive web-based Tic Tac Toe application using HTML, CSS, and JavaScript.
 - Implemented core game logic including event handling, conditional statements, turn-based play, win/draw detection, and reset functionality.
 - Improved user experience with responsive UI/UX design, reusable components, optimized performance, and cross-browser compatibility.
 - Applied front-end development principles, debugging techniques, and clean code practices for maintainable application structure.

- **Rock Paper Scissors (Solo)** GitHub

May 2025

- Created an interactive browser-based Rock Paper Scissors game using HTML, CSS, and JavaScript.
 - Added score tracking system, DOM manipulation, animations, debugging methods, and real-time result generation.
 - Enhanced application usability and user engagement with responsive design, hover effects, and scalable UI components.
 - Followed software engineering and front-end development best practices for structured and maintainable code.

Workshops

- Tech of the Era Artificial Intelligence – August 2025
- Cutting Edge Tools – February 2024

Internships

- **Full Stack Development (MERN) Internship**

SmartInternz (May 2025)

- Built a healthcare appointment-booking web application using the MERN stack for doctor search and appointment scheduling.
 - Integrated REST APIs and implemented responsive UI/UX for accessibility, seamless navigation, and improved user experience.
 - Worked with scalable application architecture, API integration, debugging, database connectivity, and front-end development practices.
 - Collaborated in application development workflows using Git, GitHub, and version control concepts.

Technical Skills

- **Programming Languages:** Java, Python, C, JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript, Responsive Web Design, Front-End Development
- **Database Technologies:** SQL, MySQL
- **Core Concepts:** Data Structures and Algorithms, DBMS, Object-Oriented Programming, SDLC
- **Developer Tools:** Git, GitHub, VS Code
- **Software Engineering Skills:** Problem Solving, Debugging, Analytical Thinking, API Integration, Team Collaboration, Communication

Professional Skills

- Adaptability, Leadership, Work Ethic
- Communication Skills, Team Collaboration
- Critical Thinking, Analytical Skills
- Organizational Skills, Quick Learning, Decision Making

Certifications

- Java – HackerRank – 2025
- Python for Data Science – IBM – 2025
- Python – HackerRank – 2025

Additional Information

- **Languages Known:** English, Telugu
- **Tech Interests:** Data Structures and Algorithms, Cyber Security, Web Development
- **Hobbies:** Gaming, Movies, Exploring Tech Communities
